Details

This cold-water pressure washer with A/C drive is the ideal entry-level model for commercial end users. The upright HD 5/12 C boasts impressive mobility, compactness and a height-adjustable handle. In the extended position, the unit's storage compartment ensures accessories are readily available. In the retracted position, this unit fits easily inside a vehicle. Includes familiar Kärcher features such as a shock-resistant plastic covering to protect the high-pressure pump from dirt and damage, an electric cable retractor with plug lock, and a nozzle compartment. Comes with an extended trigger gun and rotating wand. The metering valve enables continuous mixing of detergents with the high-pressure jet. An oil level inspection glass allows the operator to check the oil container from outside, ensuring adequate lubrication. Stainless steel pistons and a cylinder head, water inlet and high-pressure outlet made of brass guarantee a long service life on the axial pump and make it highly resistant to fracture and corrosion.
