

Furnaces

W801T

80% AFUE Up Flow/Horizontal Gas Furnaces

We've thought of everything to bring you efficient and dependable indoor comfort solutions.

- **Increase your energy savings** with the W801T, which has a constant Torque EMC Motor that maintains efficiency across a range of operating speeds, using less electrical energy than a standard PSC motor.
- **Dependability** is of the utmost importance when it comes to your family's comfort. Our W801T Gas Furnace comes standard with the direct spark ignition system (DSI), which is one of the most **dependable ignition systems** available today. This technology is the same proven design used on gas ovens and stoves.
- **Quiet Operation** is what you get with the W801T Gas Furnace. The tight door seal helps eliminate whistling. We've also added rubber grommets on the motor mounts and a twist lock wire harness in the blower shelf.
- **Easy installation and maintenance** features benefit consumers, too. This means savings on installation costs and faster, more cost-effective repairs during maintenance. The W801T Gas Furnace is also designed with the **industry-first 7-segment LED display**, a feature that makes service calls quick and easy.

Limited Warranty Information:**

Heat Exchanger - Ten (10) Years

Parts - Five (5) Years

Efficiency
80% A.F.U.E.*

Input rates from
50 to 125 kBtu

WeatherKing USA
P.O. Box 17010
Fort Smith Arkansas 72917

* Annual Fuel Utilization Efficiency (A.F.U.E.) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher A.F.U.E. ratings reflect higher efficiency.

** For complete details of the limited warranties, including applicable terms and conditions, contact your local Contractor or go to WeatherKing.com for a copy of the product warranty certificate.
