Battery Not Included

Because Flooding Is Not An Option!"

30ACI BATTERY BACKUP SYSTEM

Typical Installation

Features:

- 1/3 HP pump with PSC energy efficient motor 4.0 amps
- 42 GPM @ 10', 3450 GPH
- Fully automatic, converts 12 V DC to 120 V AC when power is off
- Runs 1/3 HP pump on AC or DC power
- · Inverter has digital display, tells status of system at all times
- Uses one 12 V deep cycle AGM battery (battery not included)
- Non-corrosive battery enclosure
- Comes with Ion® digital level control switch
- Quick and easy installation
- 3 year warranty

Ion® Digital Level Control Switch

 First of its kind, solidstate sensing technology with no moving parts

Control Switch
5. 18 x 30" or larger basin

- Multipoint sealing mechanism that supersedes single surface seals
- Rated at 2 million cycles it will last 4 times longer than a standard pump switch

Pump Performance Curve
