Honda Pumps

HONDA

GENUINE HONDA

here are a lot of reasons to insist on genuine Honda Pumps. That's because at the heart of every one of Honda's gas-powered portable pump models you'll find a legendary Honda four-stroke engine. As the world's largest engine manufacturer, Honda offers more engine experience than anyone. Experience born and tested on racetracks and roadways around the globe. Experience that continuously keeps us on the cutting edge. From automobiles, race cars, motorcycles and all-terrain vehicles to marine engines, general-purpose engines and power equipment products, Honda is committed to designing products that meet or exceed the demands of our customers across the board.

Throughout our history, Honda has been dedicated to technological and environmental innovation, and today is no different. After all, we have a legendary reputation to live up to. A reputation for unsurpassed quality, performance and reliability. A reputation worth considering the next time you're in the market for a pump.

Legendary Honda Engines

Most Honda Pumps feature our Honda GX commercial-grade engines. These four-stroke engines have long been recognized as the industry leader in providing reliable, quiet and fuel-efficient power.

Features include overhead valves for smooth, consistent power, and a cast iron cylinder sleeve for "commercial-grade" quality and durability. Many offer a dual element air cleaner that provides a clean supply of air for increased engine life. Most Honda Pumps are also equipped with Oil Alert® that protects the engine by shutting it down if oil reaches an unacceptable operating level.

Other features on the GX engine include:

- Easy starting thanks to Honda's auto-decompression technology.
- Electronic ignition for a "hotter" spark and more reliable ignition.
- Oversized muffler for quieter operation.
- Steel gas tank for added protection, including an internal fuel filter.
- Ball-bearing supported crankshaft for longer life and reduced vibration.

Tough, rugged, reliable. And they clean up nicely, too.

It all starts with the legendary Honda four-stroke engine because, let's face it, that's the heart of any pump. These engines have long been recognized as the industry leader in providing reliable, quiet and fuel-efficient power.

Why are the engines on Honda pumps better?

Reliability. Our four-stroke technology absolutely sets the standard for reliability. That's precisely why rental shops and working professionals greatly prefer Honda equipment. There's virtually no downtime and they last longer than you can even imagine.

Fuel Efficient and Quiet. The fact that our four-strokes are exceptionally fuel efficient and quiet are two more attributes. On the job site, this counts for a lot.

Easy to Start. Honda is also easy to start and easy to use. All of our pumps and engines are perfectly matched and Honda-engineered for quality and precision.

With a Honda engine providing the power, we've put together a line of 16 different portable pumps to cover almost any usage, from de-watering to multi-purpose, even submersible.

De-Watering Pumps

Honda de-watering pumps are designed for applications including irrigation, flood control, light construction, and swimming pool draining. Choose from an extensive selection of models with different features, pumping capacity and technical characteristics. With all these choices, there's no doubt you'll find one that fits your needs perfectly. Plus, every one of these pumps is compact, lightweight, and features something that professionals worldwide already count on legendary Honda performance.

LIGHTWEIGHT PUMPS

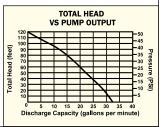

Tonda's WX series pumps are an excellent choice for homeowners, gardeners and boat owners. Powered by Honda's easy-starting, quietrunning mini four-stroke engine, these models deliver exceptional performance in a truly lightweight package.

WX10T

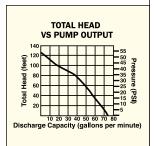

- Lightweight aluminum Uses regular gasoline pump - weighs only 13 lbs.
- 32 gal/min capacity
- Includes garden hose adaptor, 16.5' suction hose, clamps and strainer
- Powerful, easystarting, Honda mini four-stroke engine
- no mixing of oil and gas

WX15T

- Lightweight aluminum pump - weighs only 20 lbs.
- 74 gal/min capacity
- Powerful, easystarting, Honda mini four-stroke engine
- Protected by Honda Oil Alert®
- · Hose clamps and strainer included

GENERAL PURPOSE PUMPS

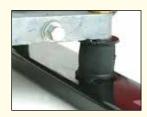

Tonda's WB series ______pumps offer the best features at a value price. Featuring Honda's commercialgrade engines and rugged full frame protection with anti-vibration mounts, these pumps feature a fixedmounted cast iron volute and Honda-exclusive, 4-vane, high-efficiency impeller with a silicon carbide seal. This is the ultimate combination of features to provide unsurpassed performance and durability in the toughest conditions.

WB series pumps feature Honda's reliable, easy-to-start, commercial-grade overhead valve engines, backed by worldrenowned Honda technology.

WB Series Features

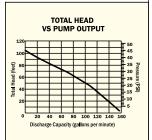

High-performance mounts minimize vibration.

GENERAL PURPOSE PUMPS

WB20XT3

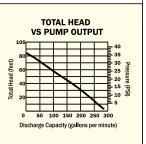

- Centrifugal, selfpriming 2" pump
- 164 gal/min capacity
- Easy-starting, Honda OHV commercial-grade engine
- Silicon carbide mechanical seal
- Cast iron volute and Honda-exclusive,
 4-vane, high-efficiency impeller
- Heavy-duty full frame protection
- Isolation mounted engine and pump
- Protected by Honda Oil Alert®

WB30XT3

- Centrifugal, selfpriming 3" pump
- 290 gal/min capacity
- Easy-starting, Honda OHV commercial-grade engine
- Silicon carbide mechanical seal
- Cast iron volute and Honda-exclusive,
 4-vane, high-efficiency impeller
- Heavy-duty full frame protection
- Isolation mounted engine and pump
- Protected by Honda Oil Alert®

4-vane, Honda-designed, high-efficiency impeller for improved performance.

Silicon carbide mechanical seal for high durability.

The Honda WB strainer is large and allows 8 mm ($^5\!/_{16}$ in.) solids to pass and helps prevent clogging.

Honda Oil Alert® protects the engine by shutting it down if the oil level becomes too low.

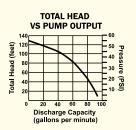

The WH series pumps offer high-pressure output, so they're perfect for high-pressure applications such as sprinklers or nozzles. High-pressure pumps are compact, easy to start, extremely reliable and feature a powerful Honda four-stroke commercial-grade overhead valve engine offering superior torque and fuel efficiency.

WH15XTA

- High-pressure (57 psi max.), centrifugal, self-priming 1.5" pump
- 98 gal/min capacity
- Easy-starting Honda OHV commercialgrade engine
- Lightweight aluminum case
- Cast iron impeller & volute

• Easy-carry handle

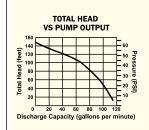

Thanks to the use of Honda four-stroke engines and superior technology, Honda water pumps offer smooth, quiet operation.

WH20XTAF

- High-pressure (64 psi max.), centrifugal, selfpriming 2" pump
- 119 gal/min capacity
- Easy-starting Honda OHV commercialgrade engine
- Lightweight aluminum case
- Cast iron impeller & volute

• Full frame protection

Multi-Purpose Pump

This versatile pump is specially designed to pump various industrial and agricultural chemicals* in addition to clear water applications. The WMP series pump features EPDM seals for chemical resistance, a reinforced thermoplastic pump housing and impeller, and full frame protection with vibration-damping mounts. This 2" pump features Honda's commercial-grade engine with Honda Oil Alert®

to provide
outstanding
performance
for chemical
applications.

WMP20X1

- Multi-purpose, centrifugal selfpriming 2" pump
- 220 gal/min capacity
- Honda OHV commercial-grade engine
- Thermoplastic pump housing and EPDM seals for chemical capability*
- Full frame protection
- Isolation mounted engine and pump

• Protected by Honda Oil Alert®

Construction Pumps

The construction and rental businesses have relied on Honda Pumps for over twenty years. Why? In a word, performance. They're so durable there's virtually no downtime, yet they're extremely long-lasting. When it comes to value, what more could you ask for? Well, how about full frame protection, Honda reliability and a complete selection of models offering pumping

he Honda diaphragm pump is one of the most rugged and durable pump models available. The Honda self-priming, positive displacement diaphragm pump offers "run dry" capability and is ideally suited for muddy water, sludge or any water with a high percentage of solids. This pump offers an easy-starting, durable, Honda commercial-grade OHV engine. Superior performance and durability are the result of a unique combination of features including die cast aluminum case, air cushion chamber, special rock channel that allows solids to easily pass, spring-protected connecting rod to prevent case damage, rugged neoprene diaphragm with nylon insert and the ability to pass solids up to 2.4". With the standard wheel kit for easy transport, this pump offers an exceptional value for construction, water treatment and agricultural applications.

- Dry, self-priming 3" diaphragm pump
- Easy-starting Honda OHV commercialgrade engine
- Pumps up to 80 gallons per minute
- Special "rock channel" prevents case damage
- Spring protected connecting rod
- Perfect when low volume, run dry operation is required
- Protected by Honda Oil Alert®
- Wheel kit standard

Submersible Pumps

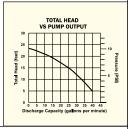

The submersible line of Honda Pumps features high quality stainless steel casings, which means no rust or corrosion and a long life span. All five models are lightweight and offer truly automatic operation. They also feature built-in thermal resets to protect the pump from running dry. All five models feature a float switch, providing automatic starting for convenience. Honda offers top discharge and trash models to meet your application needs.

SUBMERSIBLE WATER PUMPS

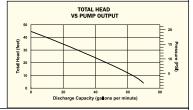

WSP33K1AA

- ¹/₃ hp, 115V submersible pump
- 40 gal/min capacity
- Lightweight and durable stainless steel casing
- Automatic non-mercury float switch
- Built-in thermal reset switch
- 20' heavy-duty cord
- Single oil filled mechanical seal construction
- Garden hose adaptor included
- UL listed

WSP53AA

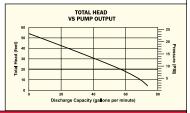

- ½ hp, 115V submersible top discharge pump
- 70 gal/min capacity
- Automatic nonmercury float switch
- Lightweight and durable stainless steel impeller and case
- Rated for continuous duty use
- Double mechanical seal construction
- 50' heavyduty cord
- UL listed

WSP73AA

- ³/4 hp, 115V submersible top discharge pump
- 74 gal/min capacity
- Automatic nonmercury float switch
- Lightweight and durable stainless steel impeller and case
- Rated for continuous duty use
- Double mechanical seal construction
- 50' heavyduty cord
- UL listed

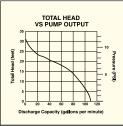

SUBMERSIBLE TRASH PUMPS

WSP50AA

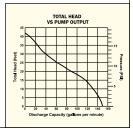

- ½ hp, 115V submersible trash pump
- 110 gal/min capacity
- Lightweight and durable stainless steel casing
- Automatic nonmercury float switch
- Built-in thermal reset switch
- 25' heavyduty cord
- 2" solids handling
- Double mechanical seal

WSP100AA

- 1 hp, 115V submersible trash pump
- 150 gal/min capacity
- Lightweight and durable stainless steel casing
- Automatic non-mercury float switch
- Built-in thermal reset switch
- 25' heavy-duty cord

URAN Solutions Basagran Bicep Modown **Bladex** N-Serve 24

Phosphoric Acid Solutions

Poly-N Ranger Round-Up Sutan **Treflan** Vernam

^{*}Temperature does not exceed 27°C (80°F).

[•] Do not use the WMP20X1 for pumping liquids for human consumption.

After each use, drain the pump housing into a suitable container and flush with fresh water.
 The temperature operating range of the pump is between -7 and 54°C (20 and 130°F).
