

ES-173 A

Plug-in performers

Plug-in convenience with power and durability for residential and commercial applications.

Performance enhancing metal construction ensures durability and longevity for many years of use

Technical specifications			
Motor displacement	14.5 A	Standard guide bar	16 "
Max engine speed	2,600 rpm	Optional guide bars	14
Engine manufacturer	Makita	Chain pitch	3/8 "
Oil tank capacity	0.14 l (4.7 oz)	Chain gauge	.050 "
Net weight	5.2 kg (11.4 lbs)		

- Excellent balance and maneuverability
- SafetyMatic chain brake with secondary braking feature integrated into electric switch
- Automatic chain lubrication
- Powerful, in-line, longitudinal Makita-built electric motor
- Optimum chain speed for quick, controlled performance for a variety of limbing or cutting projects
