Applicable Models

- 8.5/12/17/18RES and RESL
- 14/20RES/RESL
- 14/20RESA/RESAL, 120 Volts
- 14/20RESA, 240 Volts
- 15/30RES and RESA
- 15/30RYG and REYG
- 20RESB
- 20RESC/RESCL
- 20RESD
- 24RCL
- 38/48/60RCL
- 38RCLA
- 40-150ERES Models (includes ERESB, ERESC, and ERESB)

Description

The battery heater kit includes a battery heating wrap to help increase the battery temperature in cold climates. Some kits also include a heating pad that installs under the battery. The battery heaters are connected to a thermostat for controlled heating. When temperatures fall below 18°C (65°F), the thermostat activates the battery heaters, maintaining optimum battery temperature. The thermostat turns the heater off at 27°C (80°F).

Battery heater kits are recommended for generators installed in regions where the temperature regularly falls below 0°C (32°F).
