## **Engine:**

- Briggs and Stratton Vanguard
- CARB and EPA certified engine (specify CARB when ordering)
- V-Twin OHV
- Cast iron cylinder sleeves
- Vanguard is the proven industry standard for BIG BLOCK<sup>™</sup>
  engine power, performance, and reliability. For the most
  challenging applications-where downtime is not an option-this
  BIG BLOCK<sup>™</sup> has been engineered to deliver the dependability
  people need to get a lot more done in less time throughout the
  workday

## **Generator End:**

- 100% copper windings longer life and improved motor starting
- Dampers, skewed rotors for <5% harmonic distortion
- 425 Volt heavy duty capacitors
- 25 Amp 1200 volt diodes
- Varistors provide an extra layer of protection for the rotor diodes by intervening at 360 VAC and 470 VDC

## **Components:**

- 15 gallon steel fuel tank
- Heavy duty 1 1/4 inch 13 gauge tubular steel cradle
- Powder coat paint on all steel for an incredibly durable finish
- Optional 4 wheel industrial dolly kit with a fold down handle
- Solid full width steel axles
- · Standard lifting eye
- Electric start
- Generous receptacle package
- All 120 volt receptacles GFCI protected, the 120/240 volt 14-60 receptacle is compatible with building distribution panels
- NEMA 5-20 GFCI receptacles fitted with UL listed metal covers for protection against the elements
- Square D Circuit Breakers-Industry's leading trip reaction time at 1/60th of a second
- Industry's only trip indicator system (Red-Visi Trip)
- USFS spark arrestors
- Battery not included, battery required: 12V BCI group 26 rated 500 CCA or larger
