WATCHDOG 30HDC140S

Big Standby Battery

Features and Benefits

- Designed to be discharged and recharged for use with battery backup sump pump systems, marine or RV applications
- Lasts longer and performs better than automotive or deep cycle batteries
- Provides days of intermittent backup protection
- Accommodates the fluid sensor designed for Basement Watchdog batteries. Fluid sensor is not compatible with other brands of batteries
- 1-year free replacement warranty

Compatibility

The Basement Watchdog Big Standby Battery is compatible with all Basement Watchdog sump pump systems

Preparing the Basement Watchdog Standby Battery

The Basement Watchdog Big Standby battery is shipped dry and vacuum sealed to retain freshness. Unlike other batteries, the Big Standby battery will have 100% life when you are ready to install it. Activating the battery is done by simply adding the 6 qt. battery fluid pack (sold separately). Instructions are provided inside the carton. An electronic version and an instructional video are available online at www.BasementWatchdog.com. Once the fluid is added, it will reach 85% charge within 15 minutes. The remaining charge is put in by the Basement Watchdog backup sump pump system. Basement Watchdog batteries are the only batteries that will accommodate the fluid sensor allowing the backup pump controller to sound an alarm when distilled water is needed.

⚠ WARNING: Battery posts and terminals contain lead, lead compounds or other chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. Wash hands after handling. See <https://www.p65warnings.ca.gov/>.

Do not throw an old battery in the trash. Take it to a service station or recycling center.

Glenronics, Inc., 645 Heathrow Drive, Lincolnshire, IL 60069

Big Standby Battery

Model 30HDC140S

The most powerful Basement Watchdog battery for use with all Basement Watchdog Sump Pump Systems

Unique Construction

Heavy duty plates store more energy and provide longer run times. Special standby construction allows the battery to last longer in standby operation

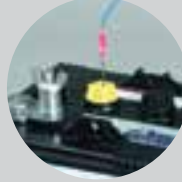

Powerful

Very high reserve capacity; runs the Basement Watchdog sump pump systems intermittently for days

Reliable

Accommodates the Basement Watchdog sump pump fluid sensor which sounds an alarm when water is needed

Easy to Fill

Battery is shipped dry and vacuum-sealed to retain freshness.

Fluid sold separately

You will also need to purchase battery fluid to activate the battery.
