

Ideal for draining basements, spas, pools, flat roofs, window wells, etc.

DESCRIPTION

- Built from non-corrosive material.
- Lightweight and easy to carry.
- Water-cooled
- Garden hose discharge threads.
- Barb adaptor for 3/4" flexible pipe
- ± 9' power cord.

OPERATION

- The electronic float start the pump when the water level reaches 1 3/4" (± 1/2").
- When the float descends and reaches its low level shut-off point, the motor continues to run for around 30 seconds to complete the drainage.

PUMP CAPACITY

HEAD	US GPH
15'	100
10'	500
5'	740

Friction loss in pipe not included
