

## ALARM DESCRIPTION

- 115V AC to 5 DC external power supply.
- Rechargeable lithium back-up battery with a 15-hour average life in case of power outage.
- Compatible with all smart phones.

## ALARM OPERATION

- The device is connected to the user's Wi-Fi network.
- A detection float is installed in the sump or sewage tank.
- The float is connected to the unit via a cable.
- The float activates the alarm when the water level in the sump pit attains a critical level above normal.
- When the alarm is activated, an SMS text message and/or an e-mail is sent to the user's three phone numbers and three e-mail addresses configured in the system.

## PUMP DESCRIPTION

- Evacuates water from a sump basin as small as 14" in diameter.
- Oil cooled for a longer life span.
- 9' electric cable.

## PUMP OPERATION

- Automatic start-stop.
- Motor turns on when higher water level lifts the mechanical float.
- Motor turns off when the mechanical float drops down.

Operates through your home Wi-Fi network

Sends an alert to three different e-mail addresses and three different phone numbers

Operates on 115V 60Hz

Back-up battery life of 15 hours in case of power failure

Fast and easy to install

Pump made of rugged cast iron and non corrosive noryl

Ideal for frequent drainage

Discharge of 1 1/2" with reducer of 1 1/4"
