

TIGHT-FIT KIT

UV LIGHT FOR PTACS & FAN COILS

Tight-Fit Kit makes it possible to realize all the benefits of germicidal UV light in limited space applications including most of the fan coil units and PTACs found on the market today. Tight-Fit Kit features a low-profile lamp on a metal shield with a mounting magnet. The magnet mount allows the UV light to be located precisely for optimum UV exposure particularly where space is limited.

TIGHT-FIT KIT

UV LIGHT FOR PTACS & FAN COILS

Protecting our homes and families from airborne infectious diseases has become the highest priority. The unique germ-killing properties of UV-C light have been known for over a century. Because UV-C in sunlight is filtered by the Earth's atmosphere, microbes (including viruses) have no defense against it. This chemical-free technology is now used for hospital disinfection, food safety, and water purification.
