

Wireless FocusPRO® Systems

Part Number	Description
YTH6320R1015	Programmable Wireless FocusPRO System Kit. Includes Programmable FocusPRO, Equipment Interface Module, Return Air Sensor, Portable Comfort Control and Wireless Outdoor Sensor
YTH6320R1009	Programmable Wireless FocusPRO Dual Fuel Kit. Includes Programmable FocusPRO, Equipment Interface Module, Return Air Sensor, and Wireless Outdoor Sensor.
YTH6320R1001	Programmable Wireless FocusPRO Kit. Includes Programmable FocusPRO, Equipment Interface Module and Return Air Sensor
YTH5320R1017	Non-Programmable Wireless FocusPRO System Kit. Includes Non-Programmable FocusPRO, Equipment Interface Module, Return Air Sensor, Portable Comfort Control and Wireless Outdoor Sensor
YTH5320R1008	Non-Programmable Wireless FocusPRO Dual Fuel Kit. Includes Non-Programmable FocusPRO, Equipment Interface Module, Return Air Sensor, and Wireless Outdoor Sensor.
YTH5320R1000	Non-Programmable Wireless FocusPRO Kit. Includes Non-Programmable FocusPRO, Equipment Interface Module and Return Air Sensor

Individual System Components & Accessories

Part Number	Description
TH6320R1004	5-1-1 Programmable Wireless FocusPRO Thermostat
TH5320R1002	Non-Programmable FocusPRO Thermostat
REM5000R1001	Portable Comfort Control
THM5320R1000	Equipment Interface Module
THM4000R1000	Wireless Adapter
C7089R1013	Wireless Outdoor Sensor
C7735A1000	Return Air Sensor

The Problem Solver

Thanks to RedLINK™ Wireless Technology – the world’s

best-selling thermostat – Honeywell’s FocusPRO® – is now also wireless so it can go anywhere and solve any problem. Since there’s no need to run new wires, there’s no longer risk in bidding jobs. It all adds up to more jobs done more quickly, which adds up to more profits for you.

# Wireless FocusPRO® Systems

**MORE JOBS DONE MORE QUICKLY.  
MORE PROFITS FOR YOU.**

Wireless is poised to become the new industry standard, and solutions from Honeywell are opening up new comfort, control and sales opportunities. With Wireless FocusPRO Systems, installers will work in a different way - spending less time wiring and more time solving the problems that homeowners care about. And without wiring, they'll also be able to handle more jobs, increasing productivity.

## RELOCATE A THERMOSTAT

In most homes, thermostats are located in areas where people don't spend the majority of their time. Now, with Wireless FocusPRO® — you can install the thermostat anywhere.

## UPGRADE TO MULTI-STAGE EQUIPMENT OR ADD COOLING

Put an end to pulling and snaking wires. Because all the wiring with our Wireless FocusPRO is done at an Equipment Interface Module by the equipment, adding multi-stage systems or cooling is a breeze.

## DISPLAY OUTDOOR TEMPERATURE AND HUMIDITY

It's often not feasible to run new wires outdoors. Our RedLINK-enabled Wireless Outdoor Sensor is the perfect solution — and displays outdoor temperature and humidity on Wireless FocusPRO thermostats.

## TEMPERATURE CONTROL ON DEMAND

Part of the Wireless FocusPRO system is the Portable Comfort Control. It senses temperature wherever it goes giving homeowners the freedom to make adjustments from any place in the home. Plus — with the added information of outdoor temperature and humidity on the Portable Comfort Control — your customers can make informed decisions on saving energy. If it's cooler outside than inside, homeowners can turn their system off to save energy.

# Wireless FocusPRO® Systems Application

Wireless FocusPRO thermostats are the same FocusPROs you already know and love — now wireless — and now able to communicate with other RedLINK™-enabled devices for a complete system approach that installs in the same amount of time.

## 1 EQUIPMENT INTERFACE MODULE\*

- Wire to the equipment using standard terminal designations and easy-to-wire push terminals
- Press "connect" to communicate with Wireless FocusPRO to run the equipment
- Common-sense LED lights show when the RedLINK signal is detected and devices are connected

## 2 RETURN AIR SENSOR\*

- Wire to Equipment Interface Module for backup control if homeowners forget to change the batteries and the system loses power
- High (82° F) and low (62° F) temperature limits to protect the home

## 3 WIRELESS FOCUSPRO THERMOSTAT

- Installs with no wires at the thermostat location
- Universal with up to 3 stages of heating and 2 stages of cooling
- Controls dual fuel systems when used in with a Wireless Outdoor Sensor
- Available in both programmable and non-programmable models
- Communicates with all RedLINK-enabled devices
- Large-backlit display
- Easy-access battery replacement
- FREE Private Labeling

## 4 WIRELESS OUTDOOR SENSOR

- Installs wirelessly with two simple screws and a touch of a button
- Displays outdoor temperature and humidity on Wireless FocusPRO and the Portable Comfort Control
- Features weather-resistant cover and lithium batteries for reliable performance in any climate
- Enables Wireless FocusPRO to control dual fuel systems
- Up to a 5-year battery life

## 5 PORTABLE COMFORT CONTROL

- Connects wirelessly to communicate and work with the Wireless FocusPRO thermostat
- Gives homeowners the freedom to sense and control temperature from any room in the home
- Displays outdoor temperature and humidity when used with the Wireless Outdoor Sensor
- Can be paged (if lost) with an audible noise from the Wireless FocusPRO

**Honeywell**

\*Standard in all Wireless FocusPRO System Kits
