

# CORD MANAGEMENT BOX

## PS-MB994

**DON'T LEAVE YOUR CUSTOMER'S HOME WITH A TANGLED MESS OF CORDS ON THE GROUND**

**WE HAVE THE PERFECT SOLUTION!**

The durable **Pro Series Cord Management Box** is a simple, inexpensive way to wrangle and organize power, pump, and float switch cords. [See more about this product](#) on our YouTube channel or scan this QR code.

**Before**

*Is this unlabeled and unsecured jumble of cords the way you want your customer to remember you?*

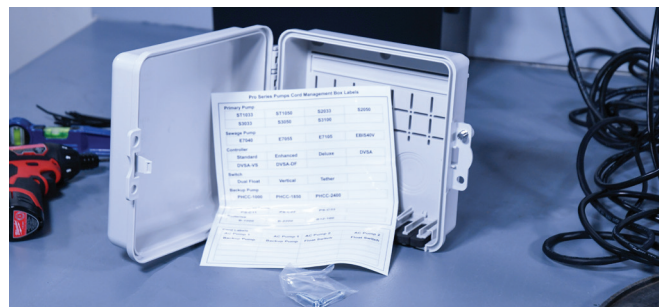

**After**

*Project a professional image when the job is done with organized, labeled and secured cords.*

### Minimize Your Tangled Mess of Cords with the Pro Series Cord Management Box! (Model PS-MB994)

- Indoor and outdoor use
- Great way to identify "installed by" and models
- Cord gasket and mounting hardware included
- Door can open 180°
- Built-in latch keeps enclosure closed
- Flexible mounting options

# CORD MANAGEMENT BOX PS-MB994

**PROJECT A PROFESSIONAL IMAGE**  
BY LABELING AND ORGANIZING CORDS DURING YOUR INSTALLATION

These cords typically are black. To make it easier to track which cord connects to each pump, controller or float switch, every cord is depicted in a unique color.

Each installation is different. The Cord Management Box is designed to leave the cords neat, organized and labeled after an installation.
