

## AIR MASTER SERIES

Quincy Compressor's Air Master series is the perfect compressor for commercial applications and do it yourself (DIY) projects around the home or garage.

Air Master series compressors feature a cast iron cylinder, crankshaft and valve plate for strength and durability. The aluminum head and design of the fins help to dissipate heat to keep the compressor running as cool as possible for longer life.

Air Master piston compressors are 100% factory tested at full pressure and shipped with 40 weight lubricant. One-year maintenance kits are available and include the lubricant and air filter needed for one complete change. Air filters and lubricant can also be purchased separately from your Quincy Compressor distributor.

Quincy Compressor has manufactured piston compressors for over 90 years. We offer a full range of piston compressors from 1 to 30 HP, as well as rotary screw compressors and air treatment products. Visit [quincycompressor.com](http://quincycompressor.com) for more details.

### Standard Features

- Single-Stage Piston Compressor
- Start-Stop Pressure Switch
- 110 to 135 PSI Working Pressure
- ½" Pressure Regulator on Portable Units
- ASME Safety Valves
- Fully-Enclosed Belt Guard
- Manual Tank Drain
- One-Year Warranty

Model Q13160V  
3.5 HP Motor  
60 Gallon Tank

Model Q12126VP  
2 HP Motor  
26 Gallon Tank

Model Q12120P  
2 HP Motor  
20 Gallon Tank

Model	HP	Single Ø Voltage	Tank Size	acfm @40 psig	acfm @100 psig	Max. Pressure	Length	Width	Height	Shipping Weight
Q13160V	3.5	230 Volt	60 gallons	14.6	12.4	135	30 in.	22 in.	68 in.	261 lbs.
Q12126VP	2	115 Volt	26 gallons	8.3	7.1	135	26 in.	26 in.	51 in.	165 lbs.
Q12120P	2	115 Volt	20 gallons	8.3	7.1	135	35 in.	20 in.	32 in.	155 lbs.
