

## K52™ Chipper Shredder

with 196cc Kohler® Engine  
Mfg# 22754

**5-YEAR  
Warranty**

### COMPACT, PORTABLE DESIGN

The Tazz™ K52™ is the ideal height for operation, the right geometry for easy transport, and compact for efficient storage. The unit stands 51" tall, so there is no need to lift material over your head. The handle bar

is angled to put the center of gravity directly above the wheels during transport for stability. The compact, square shape of the unit gives it a small footprint in the garage.

### ALWAYS-READY, LARGE DIAMETER WHEELS

Many chipper shredders have wheels fitted with inflated tires. The downside with these wheels is that they can go flat. The Tazz wheels will never go flat, so they are ready

to roll when you are. Additionally, the 11" wheels on the Tazz are large enough in diameter to tackle ruts and grooves en route to the work site.

### TOUGH, DURABLE COMPONENTS

The K52™ is made to last. The rugged steel hopper is designed to efficiently feed plant matter into the grinding chamber and to withstand the bangs and bumps that occur when working with large limbs. Also, in

the grinding chamber the tri- and j-hammers will reduce material 20:1. These parts have been in production for over two decades.

### POWERFUL KOHLER® ENGINE

Have you ever heard of Kohler® Engines? Take heart, thousands of your outdoor project soul mates have been using products with Kohler® engines since 1920. The 196cc engine attached to this Tazz™ comes with

a 2-year warranty and is strong enough to power through 3" diameter branches and masses of leaves and twigs.

### EASY-TO-USE DEBRIS BAG

Many chipper shredders don't include a debris bag. Tazz™ not only includes a bag as standard equipment; it also has features not seen elsewhere that make it the easiest bag to use in the industry. Among its features

are a Bottom-Out™ zipper, rugged fabric handles for carrying, and a Dock-and-Lock™ bag connector that allows you to connect your bag to the unit fast.

### EXCLUSIVE VACUUM KIT AVAILABLE

Tazz™ is the only product that offers an optional vacuum kit. Jobs like leaf clean-up, and grass-clipping are just some of the tasks a vacuum kit can make easier. The Tazz™ vac-

uum kit with features like a unique Air Gate™ and largest-in-class rotor produces 20% more vacuum than other chippers in its class.
