THE WEIGHT HAS BEEN LIFTED!

The Ultra-flo Spray Hose was designed from a painters perspective. This feather-weight hose offers unmatched durability and is built to withstand the high temperature exposure seen during bake cycles. A proprietary internal coating and built-in anti-static strip makes this hose the optimal solution for the professional painter.

Feather-weight Design

Eliminate Static Electricity

Longer Life - up to 2X

Built to withstand bake cycles

Engineered to Lay Flat

WHATEVER YOUR CRAFT **MASTER IT**

Clean Air You Can Count On.

We understand there's a cost for cutting corners. That's why we take every measure possible to design products that eliminate rework caused by poor air quality. With Tsunami, your business can focus on adding long-term value and avoid the pitfalls associated with low up-front cost alternatives.
